

#1 my Piano level; and all my Music (gone)

#2 my albums (about 5) with pictures of my mother & Dad, my brother Charles and me when I was about 14 (gone)

3. What has hurt worse was I went to the attic to get my Christmas lights & tree so I could decorate for Christmas. They were all gone — for 62 years I have decorated my house with a tree in the window and lights all around my house but my decorations were all gone. So for the first time in 62 years I had nothing to put up so my house has no decorations.

There are other things but these hurt the worst.

I am writing you because I read where you wrote encouraging her to take my things? I would never have believed my brother and daughter would have done this to me. I am absolutely heartbroken. I would never have thought my brother & daughter would hurt me so much. I am heartbroken.

## My Albums of our family

5 albums from when I married

one of my mother + Daddy

another my brother who

was killed when he was 5

One of me when I first went  
to school.

One when I first met my husband

when we married and

my children

I am heart broken they  
would do this to me,  
I have no pictures to go back  
to and look at.

My heart is broken every  
thing I had and wanted to keep  
she took.

You know I worked for years  
and bought things we needed and  
later things I wanted, I would never  
have thought my daughter and my  
brother would do this to me.
